

**AMENDMENTS**

**In the Claims:**

This listing of claims will replace all prior versions, and listings of the claims in the application:

1. (Currently Amended) A system comprising:  
a sheet of liner adapted to store unvulcanized elastomeric material[[s,]]; and,  
a the liner having a first end, [[and]] a second end, [[and]] a an-associated width, a length  
and a longitudinal centerline, the liner comprising:
  - (a) a first portion extending from the first end of the liner to a first transition region in the liner, the first transition region being between the first end and the second end of the liner, the first portion having a length; and,
  - (b) a second portion extending from the first transition region in the liner to the second end of the liner, the first portion of the liner being made of a first material and the second portion of the liner being made of a second material, the second portion having a length, wherein the first portion length is less than the second portion length, wherein the associated sheet of unvulcanized elastomeric materials ~~tend to~~ sticks to the first portion of the liner at a first propensity for sticking, and the associated sheet of unvulcanized elastomeric materials ~~tend to~~ sticks to the second portion of the liner at a second propensity for sticking, the second propensity for sticking being greater than the first propensity for sticking.
2. (Previously cancelled).
3. (Previously cancelled).
4. (Currently Amended) The system liner of claim 1 [[2]] wherein the first portion is formed of cotton and the second portion is formed of polyester.

5. (Currently Amended) The system ~~liner~~ of claim 6 ~~[[4]]~~ wherein the line is formed by sewing the first portion to the second portion.

6. (Currently Amended) The system ~~liner~~ of claim 1 ~~[[5]]~~ where the first transition region comprises ~~[[is]]~~ a line generally perpendicular to the longitudinal centerline of the liner.

7. (Cancelled).

Claims 8-15. (Previously cancelled).

Claims 16-18. (Cancelled).

19. (New) The system of claim 1 wherein the sheet of unvulcanized elastomeric material and the liner are wound into a roll.

20. (New) The system of claim 19 wherein the roll is center-driven.

21. (New) The system of claim 19 wherein the roll is surface wound.

**In the Drawings:**

Please replace drawings sheet 3 containing Figures 3 and 4. Enclosed herewith is a drawing amendment showing the second end of the second portion as reference numeral “54” in Figure 3. This is in accordance with the specification.

Please note that reference numeral “42” was amended to reference numeral “44” in Amendment A, filed on June 15, 2005. Please also note that reference number “56” is referenced in Figure 3 as stated in Amendment A, filed June 15, 2005.

A separate “Request for Drawing Amendment” is filed herewith.
